Value To Customers

The market leaders are always and have always been those Suppliers that provide the most value to their customers. We consider this as the most important part of Quality Assurance. This particular aspect begins when our product enters the premises of our customer, our technical staff ensures close coordination with customers to produce products that surpass quality expectation. The Quality Journey does not end with in the four walls of our mills, It goes beyond our physical boundaries and expectations of our customers.

International Quality Standards

The group is stringent in ensuring quality in all stages of production and management. We are well aware of the Quality standards of today's modern textile producers. In addition to being ISO 9001:2000 certified, A.J Textile is also certified by Control Union (CU), to run organic cotton. This certification ensures the organic status of textiles and simultaneously certifies that we are adopting environmentally and socially acceptable manufacturing practices.

Quality Policy

A.J Textile Mills limited is committed to satisfy its customers by providing them with best quality yarn. This is ensured through strict checks on raw material, processes and finished products. We believe in discipline, coordination and team work as a means of achieving our goals. We strive for continual improvement in our business processes and try to create strategic partnerships with our business partners.

Match Manufacturing

Mohsin Match factory (Pvt) Limited was one of the first safety match manufacturing unit in the Khyber Pukhtunkhwa province of Pakistan to start production in 1975. Our group later put up Mohsin Enterprises in the 90's and in 2008 set up AJ Match whose manufacturing is based in Lahore is the largest and most modern match manufacturing facility in Pakistan. Cumulatively the group now has the largest match manufacturing operation in the country and we also have the latest technology with in-house facilities of printing, packaging and allied process.

We led the path for others to follow and we remain the leaders in the field in terms of quantity and quality.

Match Products

Our products enjoy reputation of both quality and unwavering commitments for on-time delivery. We have continued on a path of steady growth in our export, which is mainly due to the quality of our product that can favorably compete with the best in the market. And it is because of the superiority of our product that we have not only captured the important markets all over the world, but maintaining our position of market leader successfully. With our continual expansion we are ever committed to increasing our share in the foreign markets.

Main Foreign Destination

We are exporting our product to different countries of the world including Egypt, New Zealand, South Africa, Congo, Lunda, Angola, Namibia, Tanzania, Kenya, Ghana, Burkina Faso, Cameroon, Senegal, Benin, Nigeria, Kanaga, Mozambique, UAE, Algeria, Iraq, Jordan, Lebanon and Central Asian Countries, for the last 20 years.

We believe in gaining and retaining trust of our business partners.
